Information about your Pine furniture.

Our pine furniture ranges have been carefully crafted from solid wood and natural wood veneers. Each piece of pine has unique characteristics such as knots, variances in shading and graining. These are part of the natural character of the furniture itself.

Caring for your Pine furniture.

Extreme temperature can cause slight movements in the wood itself so please avoid placing your furniture close to radiators or other direct sources of heat. Humidity should also be avoided.

Please avoid exposing your furniture to continued bright sunlight as it can affect the colour.

Any fluid spills should be removed as quickly as possible.

Always lift your furniture when moving as dragging may cause damage to your furniture or flooring.

After care.

Wipe the surfaces with a dry cloth and occasionally apply household furniture polish. For the models with drawers, we also recommend you use household spray polish occasionally on drawer grooves and runners as this will aid use. Please do not use detergents or chemicals on your furniture.

"Join drawer sides to drawer fronts with caution to do not damage dovetail joints. Tap gently up and down the drawer side until fully inserted into drawer front."

Fixing drawer safety stops
 1; Insert drawers into frame
 by approximately 50mm.

2; Push wooden dowels in through the pre-drilled holes close to the back of the drawer sides until they are level with the inside edge of the drawer sides.

3; Check the position of the drawer stops are correct by opening and closing the drawers.

IMPORTANT NOTICE

Please avoid opening all drawers or doors simultaneously as this could cause your furniture to fall forwards. Where there is a risk of this occurring, especially in environments with children or uneven floors we recommend that this item of furniture is attached to your wall using appropriate fixings (Not supplied).

X **x01** The RED sachet contains touch up paint for your furniture. Please retain for use should you require it at any point in the future. Application is best with a small paint brush which can be cleaned in water after use.
